Subject: Report Macro

Hi Julie,

I'd like to schedule a consultation with Agilent to discuss our report macro since our laboratory, courts and operators rely so heavily on the accuracy of our GC/MS reports. I want to make sure the macro is doing what I think it should be doing and also to discuss areas where we can improve performance. The report macro hasn't been formally revisited since it was initially introduced over twenty years ago and there have been many revisions to Chemstation and the operating system over the years. Please let me know if I can move forward with obtaining a quote.

-Peter
